## **Ms. Roongchat Boonyarat of Malee Group (MALEE TB) Currently in U.S. Discussing Company's Growth Plan's with Global Investors**

**San Francisco, CA, July 27, 2017** – This week Malee Group (MALEE TB) is conducting its first-ever non-deal roadshow in the United States, meeting with global investors such as internationally focused mutual fund managers, to discuss the company's growth plans.

Malee Group is hosted in the U.S. by institutional equities broker Decker & Co., which has offices in the U.S. and Asia. The non-deal roadshow started on the U.S. East Coast, in New York and Florida, then continued with stops in Chicago and on the West Coast.

“High-quality companies with compelling growth prospects, especially in the consumer area, continue to be of strong interest to investment managers focused on emerging markets,” said Mark Decker, founder and CEO of Decker & Co. “We are honored to host Malee Group on its first-ever roadshow in the U.S.”

Malee Group is the market leader in domestic premium fruit juice and canned fruit. Recent product successes, including UHT milk and coconut water, have penetrated global markets including fast-growing and under-penetrated countries such as Cambodia.

The topics Ms. Roongchat Boonyarat is discussing with global investment managers include major new joint-ventures announced last year. The company expects these new partnerships, with Mega Life Sciences (MEGA TB) and Monde Nissan Corp., to further catalyze growth.
